

GUIDE to READING POSTS UNDER “BEFORE MEMORIES” at MARILEEWEIN.COM

These posts under “Before Memories” were written as free standing pieces, not necessarily chronologically. This series profiles ancestors and descendants of Ole Hemmingsen (1851-1903) with events that began *before our time; that is, before 1940*. This organizes the overall effort for those who want to read “from beginning to end”. Except that, this chronological flow will be interrupted by “need to know this, before reading that” a matter that arises as stories are written when data is actually acquired. “Memories” captures events initiated after 1940.
